*Annual Provider
Satisfaction
Survey Report*

Prepared for
Northeast
Behavioral
Health Care
Consortium

Introduction

The Northeast Behavioral HealthCare Consortium (NBHCC) contracted with the Advocacy Alliance to conduct annual satisfaction surveys of providers of behavioral health services through NBHCC under the HealthChoices Program in Lackawanna, Luzerne, Susquehanna, and Wyoming Counties.

The purpose of the Provider Satisfaction Survey is to measure the satisfaction levels of behavioral health practitioners in the HealthChoices counties and under the NBHCC Health Plan. The areas measured include authorization, provider relations, care management, claims, member services, C/FST, BHRS, grievance and complaint processes, and overall satisfaction.

Survey Methodology

The survey instrument used with permission by the Advocacy Alliance in the Provider Satisfaction Survey process was designed by Community Care Behavioral Health Organization (CCBHO), which currently uses the survey instrument in other HealthChoices zones.

The Advocacy Alliance worked with NBHCC to develop a sampling protocol determined by the providers identified within the scope of the study and included only those providers who were identified as providing services at the time the sample was drawn. It was determined that 589 unduplicated providers had provided services under NBHCC.

All providers identified as providing services under NBHCC were mailed a Provider Satisfaction Survey, which included instructions for the provider, if they should choose, to complete the survey on a secure website. User IDs and Passcodes were included in the cover letter sent with the survey and 48 Providers completed the survey.

The proposed protocol for survey distribution was through a “waved” mail out process, with cover letters and surveys mailed, followed by a second survey and cover letter sent to non-respondents.

Data Display

Data from the survey is presented as counts (e.g., 48 responses) and as percentages (e.g., 10%). Additionally, data from the survey is presented as percentages “rounded” to the nearest whole number. This rounding standard means that any percentage that was 0.1-0.4 above a number (e.g., 33.1%) would be rounded down to the nearest whole number (i.e., 33%). Any percentage that was 0.5-0.9 (e.g., 22.9%) would be rounded up to the nearest whole number (i.e., 23%). In this report, it is possible to see percentages accounting for slightly more or less than 100% (i.e., 99% or 101%) due solely to rounding.

Survey Completion Rate

The Alliance distributed 589 surveys and received 48 unduplicated surveys, representing an 8% response rate. This is a decrease in response rate from 2022 (with a 10% response rate) and 2020-2021.

The following data reflects the responses of 46 unduplicated surveys, all of whom identified their agencies as providing services to NBHCC/CCBHO HealthChoices Members during 2022. Two providers returned surveys indicating that they did not serve NBHCC/CCBHO HealthChoices Members during 2022.

Authorization and Pre-Certification Questions

Providers were given a definition of Authorization and Pre-Certification (terms that refer to the way a provider contacts CCBHO to get approval for services) and were instructed to consider the level(s) of care they provide and answer accordingly.

Do you have any comments regarding Community Care's overall service management process?

"I am bilingual and several times CCBH has audited my sessions with those clients, which often take longer because of the communication barriers or obtaining informed consent, which is a vital part of the intake process. An hour allocated for the initial evaluation is inadequate in these cases."

"They always put the patient first and they are a pleasure to work with."
