*Annual Experience of Care
and Health Outcomes
(ECHO™) Survey Report*

Prepared for
Northeast
Behavioral
Health Care
Consortium

Introduction

Pennsylvania's Department of Public Welfare (DPW) prescribes that Northeast Behavioral Health Care Consortium (NBHCC) conduct annual satisfaction surveys of consumers, persons in recovery, and families of children and adolescents receiving services from NBHCC under the HealthChoices Program.

The purpose of the Member Satisfaction Survey is to determine the extent to which NBHCC adult Members and family members of children and adolescents are satisfied with overall NBHCC operations and services and to identify areas which need improvement. The surveys used by the Advocacy Alliance to gather information to determine whether NBHCC Members and family members are knowledgeable about and satisfied with the behavioral health program, including core functions such as Member services, as well as to assess whether service availability, service access, and services provision and effectiveness are meeting the Member's and family members' needs and expectations.

Survey Methodology

The Experience of Care and Health Outcomes (ECHO™) survey tool, which is part of the Consumer Assessment of Healthcare Providers and Systems (CAHPS) family of surveys and developed with support from the Agency for Healthcare Research and Quality (AHRQ), was used to evaluate behavioral healthcare under NBHCC from the adult Member's perspective and from the perspective of the family members of children and adolescents. Without changing question substance, NBHCC and the Advocacy Alliance merged the adult and child versions of the ECHO™ survey, creating one universal survey tool. If a question was specific to one population, a response choice of Not Applicable was added to the question response set.

The Advocacy Alliance worked with NBHCC to develop a sampling protocol determined by the population identified within the scope of the study. Upon reviewing the ECHO™ Survey instructions, it was determined that the sampling protocol (called Sample A) most highly recommended by the ECHO™ development team would be most appropriate for use. The sampling protocol used was that of drawing the sample from the population of Members known to have received/used the Behavioral Health Services and who met the following criteria:

- The individual was 18 years old or older (as of January 1 of the current year) or, if a child or adolescent under age 18, parent/guardian contact information provided;
- The individual was enrolled in the organization when the sample was drawn;
- The individual should be enrolled in HealthChoices for the previous 12 months; and
- The individual received ambulatory or outpatient and day/night behavioral health care services during the evaluation period (with behavioral health services defined to include mental health and chemical dependency services).

The sampling instructions also stated that there should be no other members of the household in the sample frame. While attempts were made to follow this instruction, due to many Members sharing addresses (i.e., Children and Youth, Child/Adolescent Residential Treatment Facilities, Personal Care Boarding Homes, Community Residential Rehabilitation) this was not possible.

During 2007-2008, NBHCC and the Advocacy Alliance modified the sampling process to ensure that each large provider agency was well represented in the random sample. This was done by taking a percentage of the full sample from each provider, as outlined in the following table.

Provider Agency	Total Number of Members Surveyed	% of Total Random Sample
Children's Service Center of Wyoming	1,116	20%
Friendship House	1,104	20%
Northeast Counseling Services	1,104	20%
Scranton Counseling Services	1,094	20%
Remaining Members	1,120	20%
Members who filed a Complaint or Grievance	62	<1%
Total	5,600	100%

From the database provided by NBHCC, the Alliance used random sampling software to draw a random sample of Members as outlined above, which included a representative sample of adult, child and adolescent Members stratified to include those Members who have a serious mental illness and Members who are other priority services users. Included in the stratified sample are all Members who have filed a complaint and/or grievance.

In total, NBHCC provided the Alliance with a database of 57,713 Members and, upon completion of the sampling process, the Alliance distributed 5,600 Member Surveys (see Detailed Member Sample table below).

Service Provider	Population	Under 18 Members Served (N)	Number of Total Surveyed	18 & Older Members Served (N)	Number of Total Surveyed	Number of Total Members Surveyed
Children's Service Center of Wyoming	Priority	247	34	1,704	202	236

	Other Priority	1,196	574	641	306	896
	Total	1,248	596	1,065	508	1,104
Northeast Counseling Services	Priority	68	22	1,955	459	481
	Other Priority	692	164	1,999	459	638
	Total	760	186	3,954	918	1,104
Scranton Counseling Services	Priority	195	34	2,327	403	437
	Other Priority	1,313	219	2,578	438	672
	Total	1,508	253	4,905	841	1,094
Remaining Members	Priority	707	22	9,033	291	313
	Other Priority	6,280	202	18,670	605	807
	Total	6,987	224	27,703	896	1,120
Members who filed a Complaint or Grievance		25	25	37	37	62
Grand Total		14,579	1,758	43,134	3,842	5,600

	Total Surveys Distributed (N)	% of Total Surveys Distributed
Under 18	1,758	31%
18 & Older	3,842	69%
Members who filed a complaint or grievance	62	<1%
Total Surveys Distributed	5,600	100%

The Member Surveys are typically distributed through a “waved” mail out process outlined by the ECHO™ survey designers and designed to best meet the response goal of a minimum of 200 responses for each survey question. The process outlined included:

- (1) Send questionnaire and cover letter.

- (2) Send a reminder postcard to non-respondents approximately two weeks after mailing the first questionnaire.
- (3) Send replacement questionnaire with a second letter to non-respondents approximately three weeks after mailing the first questionnaire.
- (4) Send a reminder postcard to non-respondents approximately two weeks after mailing the second questionnaire.
- (5) Conduct phone calls during the mail-out process, giving members the opportunity to complete the survey over the phone.

Survey Completion Rate

The optimal goal of receiving a minimum of 600 completed Member Surveys was achieved, with 711 surveys received. Upon review of the data, 18 duplicate surveys were removed, leaving 693 unduplicated surveys, representing a 12% response rate, which is similar to previous years (2024, 2023 and 2022 with an 11% return rate) and compares to other years as follows:

increasing from an 8% response rate during 2020-2021;
decreasing from a 19% response rate during 2019-2020;
remaining the same at a 12% response rate during 2018-2019; and
increasing from at 11% response rate during 2017-2018.

Among the sample of 693 survey completers, 103 said they had not received services or did not respond to the question regarding receiving services (all of these individuals had been identified in the original database as service recipients). Individuals who said they had not received services or did not respond to the question regarding receiving services did respond to some of the demographic questions. Their responses are included in the demographic section of this report. The satisfaction responses reflect the responses of 590 unduplicated surveys.

		Surveys Received

Respondent Profile

The following data reflects all surveys received, including those who indicated that they had not received services, with the data from those Members who received a survey as a result of filing a complaint/grievance included in the total number of responses. Please note that, while some Child/Adolescent Members report their current age of 18, their age at the time the sample was drawn was under 18.

Data Display

Data from the survey is presented as counts (e.g., 44 responses) and as percentages (e.g., 10%). Additionally, data from the survey is presented as percentages “rounded” to the nearest whole number. This rounding standard means that any percentage that was 0.1-0.4 above a number (e.g., 33.1%) would be rounded down to the nearest whole number (i.e., 33%). Any percentage that was 0.5-0.9 (e.g., 22.9%) would be rounded up to the nearest whole number (i.e., 23%). In this report, it is possible to see percentages accounting for slightly more or less than 100% (i.e., 99% or 101%) due solely to rounding.

Composite Measures

The following data shows the composite measures as outlined by the ECHO™ Survey Reporting Measures. Overall data of those Members reporting to have used behavioral health services are shown in the following tables and graphs.
